

Dear Internship Candidate,

Thanks for your interest in becoming a part of the team here at the WNC Nature Center, a part of the City of Asheville's Parks, Recreation and Cultural Arts Department. With over 40 acres of Southern Appalachian habitat, the WNC Nature Center is a prime attraction in the Asheville area for families, residents, and visitors. The Nature Center is proud to be accredited by the Association of Zoos & Aquariums. We welcome over 108,000 visitors annually and provide care for over 60 species of wild and domestic animals as we work towards our mission of connecting people with the animals and plants of the Southern Appalachian Mountain region.

Are you looking to gain experience or to learn more about zoo careers? The WNC Nature Center is searching for seasonal interns to assist with our animal, education, and exhibits departments. All of our internship positions are volunteer non-paid positions; internships may be eligible for school credit, pending your school's approval. The Nature Center can only host a limited number of interns each season, so the selection process is competitive.

Should you be searching for a full-time or paid position with the Nature Center or Asheville Parks and Recreation, you can check the City's website at www.ashevillenc.gov. All our hiring is done through the City's website, which updates each week on Thursdays. The Friends of the WNC Nature Center also searches for internships through the AmeriCorps Organization. Call the Friends of the WNC Nature Center office at 828-259-8092 for more information.

Both the Nature Center and the Friends of the Nature Center are always looking for volunteers. If you're not able to commit to a full internship or if you are not offered a formal internship, please consider volunteering. To find out more about volunteering, visit our website: www.wildwnc.org/volunteer/join-our-team.

For general information regarding internship possibilities at the WNC Nature Center, please see the descriptions below. [See our website for current internship openings and applications.](#)

These internships may require working some weekend days and holidays. For more information contact Savannah Trantham at strantham@ashevillenc.gov.

Environmental Education Internship

Internship Dates:	Application Deadline:
August – December 2014	July 20, 2014
January – May 2015	November 20, 2014
May – August 2015	April 20, 2015
August – December 2015	July 20, 2015

Time: 8:30am - 5:30pm, 40 hours per week (flexible hours)

Location: WNC Nature Center, east Asheville

Sponsor: City of Asheville's Parks and Recreation Department

Objective: To develop a basic knowledge of and acquire skills used in planning and design of an educational display and facilitation of programs in a non-formal setting. Topics of discussion include environmental awareness, wildlife ecology and biology, and wilderness conservation.

Summer Responsibilities:

- Assist with the supervision of the Young Naturalist summer teen volunteer program
- Assist with care of education animal collection (birds of prey, mammals, reptiles, and amphibians)
- Assist with after-care for our summer day camp
- Interact with visitors at docent stations and live meet-an-animal stations
- Learn to create and deliver public interpretive programs
- Learn to collect and report data for national citizen science monitoring projects.
- Care for the education garden (growing food and enrichment items for the animals)
- And other special projects based on intern interest and Nature Center needs

Qualifications:

- Be at least 18 years of age and have completed at least one year of college-level education.
- Be able to work independently, indoors and outdoors in all kinds of weather and on uneven terrain.
- Have good communication skills. Must enjoy speaking to the public and be willing to engage passing visitors.
- Be willing to work with groups of children, adults, and teenagers.
- Be willing to handle and care for reptiles, amphibians, insects, and barn animals.
- Knowledge of native plants and animals is preferred, but not required.

Exhibits Internship

Internship Dates:	Application Deadline:
August – December 2014	July 20, 2014
January – May 2015	November 20, 2014
May – August 2015	April 20, 2015
August – December 2015	July 20, 2015

Time: 8:30am - 5:30pm, 40 hours per week (flexible hours)

Location: WNC Nature Center, east Asheville

Sponsor: City of Asheville's Parks and Recreation Department

Objective: To develop a basic knowledge of and acquire skills used in planning, design, and fabrication of zoological and natural history exhibits. Major Responsibilities: Will assist Exhibits Curator in a variety of ongoing productions of signs and graphics, landscaping, exhibits maintenance and repair, and fabrication of exhibits. Renovation of the Nature Center's exhibits and on-site and offsite signs for the city will be the primary tasks this summer. May include working with cement, wire, graphics, rebar, etc. in a physically demanding environment. Work with power and hand tools desirable.

Requirements: College student in biological, graphics, or associated field of study (or experience). Artistic, carpentry and landscaping skills desired. Good communications needed and able to work outdoors in a physically demanding role. These internships may require working some weekend days and holidays.
